Hello Kat,

We have been in discussions with Dr. Buchannon and Dr. Qualters of ~~about CDC's over their providing input on our rodenticide action's impact of public health.~~ They have asked that I ~~we~~ confirm that the Secretary's office is ok with CDC providing comment directly to ~~given EPA's original request was directed at HHS, as you had indicated in earlier exchanges.~~ Couldan you please confirm via reply email that the Secretary's Office approves of CDC responding ~~directly to my Agency's our EPA's~~ inquiry regarding rodenticides? ~~If you would like, we will continue to keep you in the loop on all communications regarding the rodenticides.~~

~~If this proposal is not acceptable to your office, please let us know and we will be happy to work with you on a more appropriate communication process.~~

Thank you in advance for you assistance on this matter.

Regards,

Thank you. Since you already have the CDC comments, is there a deadline by which HHS will need to update the CDC comments?

Hello Kat,

We will remove the OGC comments from the submission.

We have been in contact with Dr. Judith Qualters and Dr. Sherunda Buchannon of CDC. I believe they are developing a response/comments.

Thank you again for your help and follow up.

Good morning Rusty,

Please remove the OGC comments (attached) from the HHS submission. Our lawyers inform that after revisiting the issue with our FDA colleagues determined that there was no need for the comment.

Also, you had mentioned that you will be in contact with CDC regarding their comments attached. Please let me know if this loop is closed.

Thank you,

Kat

Good evening Russell.

CDC reviewed and has comments, attaching, here.
Our lawyers (OGC) also reviewed and made comments, which are also attached.

Besides CDC and OGC, I had our experts in ASPE, OASH, NIH, and FDA also review. They had no concerns nor comments.
The Counselor to the Secretary also reviewed and had no comments either.

I would appreciate you letting me know whether the attached is
